

K-LOVE is the only radio station I listen to now. I used to listen to different types of music but since I found K-LOVE I listen to nothing eals. It is a blessing to be able to listen to music and not worry about what kind of words might be said. I have a grandson and he loves the music.If you were to put any other type of station here it would not last. There are enough different types in the DENVER area now.People who can't get around to attend a Church listen to this station and get the message they are looking for.In today's times too many children listen to music that sends the wrong message. K-LOVE tell's them they can listen to music that is about loveing each other, and beliving in GOD.
